Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 16-19 and 145-161 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as filed does not disclose the haze values of "less than or equal to about 17%" and this limitation is therefore new matter. Furthermore the specification as filed does not disclose anything more about how to produce applicants surface haze value than does Woo US 6743523 and as applicants allege Woo has no disclosure whatsoever regarding haze value it follows that it is not present in the instant specification either.

Claims 16-19 and 145-161 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Woo et al. (US 6,743,523).

See the Office action of 8-22-06 at the paragraph bridging pages 2 and 3 et seq.

With re to applicants effective filing date, applicants haze value range does not appear in the parent case although Woo and the instant application share some examples and therefore any characteristic in the examples of instant case would appear to be inherent in Woo also.

Applicant's arguments filed 11-22-06 have been fully considered but they are not persuasive.

The specification as filed does not disclose the haze values of "less than or equal to about 17%" and this limitation is therefore new matter. Furthermore the specification

Art Unit: 1711

as filed does not disclose anything more about how to produce applicants surface haze value than does Woo US 6743523 and as applicants allege Woo has no disclosure whatsoever regarding haze value it follows that it is not present in the instant specification either.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
